The Privacy Rule generally requires healthcare providers to take reasonable steps to limit the use or disclosure of, and requests for *PHI* to the minimum necessary to accomplish the intended purpose. These provisions do not apply to uses or disclosures made pursuant to an authorization requested by the individual.

Healthcare entities must keep records of *PHI* disclosures. Information provided below, if completed properly, will constitute an adequate record.

Note: Uses and disclosures for TPO may be permitted without prior consent in an emergency.
